Infrastructure to Meet Industrial Demands

The Park's Unique Heritage Provides Strength, Versatility and Stability

Satsop offers plentiful space, complete utilities, cooling water, industrial water supply and natural gas

- Upland development with imported compacted fill for building sites
- Multiple heavy-duty access roads above 100-year flood plain
- Installed underground utilities for fire protection, water, sewer, phone and fiber
- Access to Chehalis River for shipping via recently renovated industrial-sized barge slip
- Road to barge slip built and tested to a 900-ton load capacity

Key Infrastructure Features:

- Natural gas 20" and 4" lines to site
- 496' natural draft cooling tower with a 24.4 acre-feet cooling pond basin; potential heat exchange capacity is 6.8 billion BTU/hour with spray header distribution to tower
- Multiple diverse fiber routes serving the park with various providers
- Two on-site power switch yards with redundant 115kV BPA feeds, 41.5 MVA main transformer with back-up and 12.5kV site distribution system
- Secure water rights to 6.9 mgd of industrial water
- Fire protection and potable water storage totaling 1,030,000 with capacity to pump 10,000 gallons per minute
- Wastewater treatment plant - 50,000 gallons per day - sized for a workforce of 5,000
- Seismically stable location

Satsop Business Park

A FACILITY OF THE  PORT OF GRAYS HARBOR

Where to Grow,
Satsop Business Park

Satsop Business Park is a 1,700-acre mixed-use business and technology park located in scenic Grays Harbor County in Southwest Washington just 30 minutes from Olympia and the I-5 corridor.
